Report about the Program

Name of the Program: Workshop on “Goal Setting”

The Women Empowerment Cell of Ganesh College of Engineering, Salem has organized an Awareness Program on “Goal Setting” on 30-07-2017 at college seminar hall. The program is inaugurated by Principal, Ganesh College of Engineering, Salem. The resource person of this program is Dr. Senthil, Ganesh College of Engineering. In this program nearly 75 students and staff members were participated.

The speakers were briefed about the importance of setting Goals in students career. In the beginning of the program, the principal has delivered his valuable ideas that “Goal Setting starts with listening to individual interests and priorities and helps groups to build toward establishing a shared agenda. This event guide covers a sequence of asking individuals to write down their goals, then looking for similar goals, voting for important goals, and finally choosing which are most important to measure progress towards. Goals give us direction in our lives and provide a target us to go after. Further the Secretary & Correspondent, added that “goals are force us to get outside of our comfort cones and push ourselves towards achieving something that we want. They’re essential to life Goal setting can be described as a personal planning process. It helps participants to identify what they want to achieve in their personal life and/or their professional life”.

Eventually the principal opened few more words towards Goal setting. Goal setting has been proven to be a more effective method of achieving targets as opposed to aspirations. In order to be able to achieve your lifetime goals, it is important to set them effectively. Unfortunately the meaning and importance of “Goal Setting” Explain the psychology of Goal Setting, Initiate the Goal Setting process, Discuss the crucial difference between aspirations and goals, Plan personal and professional goals. Look at your life roles and what services you can provide to other people, use time management techniques to achieve your goals on time, include other people into your goals to act as coaches, develop human values into long term, reward your success to motivate your further.

On the whole the students participants were felt very happy for participating in these social service events and they asked the Coordinators to conduct this type of events many more in future. Faculty said thanks to speakers of the program for their valuable ideas on goal setting. At the end the program Appreciation prizes are given to active student participant by the management.

Report about the Program

Name of the program: Economic Empowerment of Women

The Women Empowerment Cell of Ganesh College of Engineering, Salem has organized an Awareness Program on “Economic Empowerment of Women” on 20-09-2018 at college seminar hall. The program is inaugurated by Principal, Ganesh College of Engineering, Salem. The resource person of this program is Dr.S.Sumathi, HOD/English, Padmavani Arts and Science College for Women. Nearly 90studentsparticipated in this program.

In the present world there is a significant in equalities between women and men in many societies, including in levels of formal participation in the lab or market, income, entrepreneurship, etc.

In the past decades, the health and education level of women and girls in developing countries have improved a great deal. In many cases they are catching upto men and boys. But no such progress has been seen in economic opportunity, women continues to consistently trail men in formal labour force participation, access to credit, entrepreneurship rates, income level and ownership rights.

In developing countries women make an average 43 per cent of agricultural workforce. This makes women less productive – even though they works hard. Increasing the share of household income controlledbywomenchangesspendinginthehouseholdinwayswhichbenefitschildren’s.Strengtheningwome n’seconomicopportunityis also an essential contribution to eradicating poverty.

Report about the Program

Name of the program: INSPIRING CHANGE THROUGH WOMEN DEVELOPMENT.

The Women Empowerment Cell of Ganesh College of Engineering, Salem has organized an Awareness Program on "Inspiring Change through women development" on 24-07-2019 at college seminar hall. The program is inaugurated by Principal, Ganesh College of Engineering, Salem. The program was graced by the presence of eminent speaker Dr.S.Vijayadharani, M.A.,M.L.,Ph.D Advocate and Advisor PGP college of Engineering . The program started with a prayer song. The welcome speech was given by women empowerment cell In-charge. She explained the objectives of the program. In this awareness program nearly 120 students are participated.

The Objective of this program is Empowering Women to inspire women with the courage to break free from the chains of limiting belief patterns and societal or religious conditioning that have traditionally kept women suppressed and unable to see their true beauty and Power. Despite many international agreements affirming their human rights, women are still much more likely than men to be poor and illiterate. They usually have less access than men to medical care, property ownership, credit, training and employment. They are far less likely than men to be politically active and far more likely to be victim of domestic violence. With an objective to create awareness among students specially girls of our college who will be the future cradlerockers or the rulers of the world. we organized seminar with a view to see the future implications for inspiring change for a happy world.

Our Guest speaker Dr.S.Vijayadharani, Advocate and politician made our program colour full by giving a short and an effective speech on the topic "Raising the level of social capacity for women. She explained with illustration a story how a woman can fight the discrimination against the men so encouraged the students to visit the different organizations working for the benefits of women. She discussed the roles and responsibility of student community in ensuring women empowerment in institution. The program was open for discussion and the students cleared their doubts on the topic.

Report about the Program

Name of the program: VIOLENCEAGAINSTWOMEN

The Women Empowerment Cell of Ganesh College of Engineering, Salem has organized an Awareness Program on **"VIOLENCE AGAINST WOMEN"** on 30-7-2019 at college seminar hall. The program is inaugurated by Principal, Ganesh College of Engineering, Salem. The resource person of this program is Dr. S. Gandhi, Asst. Professor, Bharathiyar College of Education, Attur and initiated the program. The main objective of this program is **"VIOLENCE AGAINST WOMEN"** unites phenomenal females to redefine woman hood and what it means to be a girl.

The speaker briefed on the subject "Violence against Women and girls is among the most universal and pervasive human rights violations, affecting at least a billion women across the globe. Recent estimates suggest that approximately 35 percent of women worldwide have experienced physical and/or sexual violence from their partners or non partners sexual violence. They experience violence in times of peace and times of conflicts of war. The risk is intersectional, meaning that some women and girls face heightened risk of experiencing physical or sexual violence, including those married before age 18 with low level of education or who are sexual and gender minorities. Students participated actively in interaction and make clear their doubts and raise their ideas.

Report about the Program

Name of the program: Awareness on “WOMEN RIGHTS”

The Women Empowerment Cell of Ganesh College of Engineering, Salem has organized an Awareness Program on “WOMEN RIGHTS” on 23-09-2021 at college seminar hall. The program is inaugurated by Principal, Ganesh College of Engineering, Salem. The source person of this program is Mr. S. Swaminathan.,B.A.,B.L.,, Advocate Salem initiated the program. Around 80 girl students attended this event.

A Speech on Women’s rights and its necessity to be established in this event as follows:

The rights available to a women in India can be classified into 2 categories, namely as constitutional rights and legal rights. The constitutional rights are those which are provided in the various provisions of the constitution. The legal rights on the other hand are those which are provided in various laws of the Parliament and the State Legislatures.

Everyone is entitled to have freedom especially women. Women right let women be independent and treated fairly. Some of the most common rights they fight for are the right to vote, equal pay, swing land and getting education. These type of problems usually occur in both under developed and developing countries.

The abuse of women in under developed countries happens all time. Women are isolated from outside world by doing house hold works. The life they have isn’t easy. At the age of sixteen, in Pakistan women are often married. These girls husband are chosen for them.

Report about the Program

Name of the program: “To Educate Girl is to Reduce Poverty”

The Women Empowerment Cell of Ganesh College of Engineering, Salem has organized an Awareness Program on “To Educate Girl is to Reduce Poverty” on 08-03-2021 at college seminar hall. The program is inaugurated by Principal, Ganesh College of Engineering, Salem. The resource person of this program is Dr.Kavitha Priya, MBBS/MD (Pediatrics), Life care Hospital, Gugai,Salem, initiated the program. The main objective of this program is “To Educate Girl is to Reduce Poverty” unites phenomenal females to redefine woman hood and what it means to be a girl.

One-third of girls in developing countries are married off before the age of 18, and most have children within a few years. Most of these marriages are arranged, and this can be incredibly dangerous as more girls between the ages of 15 and 19 die from pregnancy complications than anything else. Educated women tend to get married later and give birth to healthier babies. In Egypt, the children of educated mothers are half as likely to die as the children of uneducated mothers. Educating women reduces poverty by resulting in healthier mothers and babies. Growing up without a mother increases the chances of living in poverty, especially for females, and education is a tangible way to combat this issue.
